

WE'RE FOODIES WHO LOVE VARIETY!

Kitchen United MIX's mission is to deliver delicious food options to communities that crave variety. We provide a multi-concept experience by offering different types of cuisine on our platform and at on-site locations. Kitchen United built robust decentralized technology that empowers customers to interact with new products across our member brands. Within our platform, we engage new customers while improving restaurant operations thus enabling seamless customer acquisition, order generation and delivery fulfillment.

BUILT IN SUPPORT

From shared labor, back-of-house cleaning and providing innovative technology, we are an active partner in your success by helping you make the transition to a virtual kitchen.

GROW YOUR BUSINESS

Our kitchens feature front-of-house and in-person ordering, giving you the visibility of a traditional brick and mortar with minimal risks.

REACH MORE CUSTOMERS

Kitchen United's tech stack includes demand generation by streamlining all pickup, delivery and in-person orders along with ongoing marketing campaigns to expand your customer base.

CUSTOM DATA DRIVEN SOLUTIONS

Kitchen United employs data-driven strategies to determine your personal needs and help your business reach its full potential.

HERE'S HOW IT WORKS
